

MEETINGZONE ENHANCES ITS VIRTUAL EVENTS SERVICES

Thame, Oxon, UK: 10 January 2018:

Conferencing and collaboration specialist MeetingZone, has announced a range of enhancements to its Virtual Events range of services.

There will be new language drop downs to select the language emails and notifications should be generated in, with more call language options available for the Virtual Event itself.

The processes for requesting and booking a Virtual Event have also been streamlined and made much easier to use.

“We’re continually looking at ways to improve our service and make it as easy as possible for customers to use. We implemented these changes following feedback from customers and so far the response has been very positive”, commented Chantal Stone, Product Manager, MeetingZone Audio.

About MeetingZone

MeetingZone was set up in 2002 and has operations in the UK, Germany, USA, Nordics and Asia Pacific. Their workplace communication, collaboration and conferencing services help people connect, communicate and collaborate more productively.
